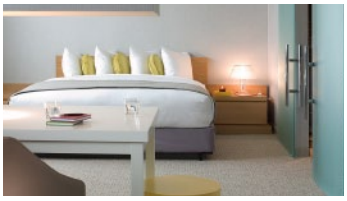
ROSEMONT
It's All Here

Welcome to Rosemont

The Rosemont Convention Bureau provides a restaurant reservation and an area information kiosk to assist you during your trade show or conference. Visit this information kiosk located in the lobby of the Donald E. Stephens Convention Center for a copy of our Rosemont Visitor's Guide to locate lodging, entertainment, and cultural facilities, and to enjoy the ambience of international cuisine at Rosemont and Chicagoland area restaurants.

The all-new MB Financial Park at Rosemont is open for business, located one block west of the Donald E. Stephens Convention Center. The Park features a series of restaurants and live entertainment venues, including Hofbräuhaus House, Fogo De Chão, Toby Keith's I Love This Bar, Adobe Gila's, Sugar Factory, Kings Bowling, Five Roses Irish Pub, the Park Tavern and the famous Zanies Comedy Club. More venues are in the works for what has quickly become Chicagoland's hottest destination.

The Rosemont community is home to some of the best names in the hotel industry, including the Loews, Hyatt Regency, Crowne Plaza, Embassy Suites, Doubletree and Hilton, all either connected to or within walking distance to the Convention Center. There are also additional hotel properties in town, including Westin, Marriott Suites, Holiday Inn Select, Sheraton, another Hyatt and Best Western, all a short distance away.



The Rivers Casino is located four blocks north of the Convention Center, and is by far the most successful gaming facility in the state of Illinois. In addition to a wide variety of gambling options, the Rivers Casino features a Hugo's Frog Bar and Chop House, the asian-themed MianBar, Flipt Gourmet Burger Bar and the Cube nightclub, featuring a state-of-art sound system and variety of live entertainment.

In addition to the MB Financial Park, Rosemont is home to some of the finest restaurants in the Chicago area. Gibsons Steakhouse, Morton's, Rosewood, Carlucci, Nick's Fishmarket and Harry Caray's are all fine dining establishments that call the community home, as do popular and casual spots such as RAM Restaurant, T.G.I. Fridays, Laredo's Mexican and Giordano's, known for its Chicago style deep dish pizza.

ELECTRIC SERVICE FOR EXHIBITS AT THE DONALD E. STEPHENS CONVENTION CENTER

Electrical requirements for an exhibit at the Convention Center are based on codes developed by local and national organizations whose professional responsibility is for the safety of all exhibitors and visitors.

Too frequently, fires have been traceable to faulty wiring sometimes because of carelessness and sometimes because of lack of understanding of the risks involved.

In the interest of public safety, every exhibit presented in the Convention Center is carefully inspected to deter mine if violations exist. If they do, qualified electricians are available to correct the problem. This work will be performed on a time-and-material basis. If the exhibitor does not wish to have the fault corrected, electrical service will not be connected.

If an exhibitor is not informed or does not understand basic safety standards for electrical wiring, an electrician should be consulted before shipment is made to the Convention Center.

SAFE WIRING IS ESSENTIAL

Donald E. Stephens Convention Center is responsible for the total electrical distribution systems and the linking of all electrical items in an exhibit with the power services of the building.

Serious risks are involved which can be reduced with accurate understanding of basic requirements. Safe wiring inside an exhibit is essential.

Wiring that touches the floor must be "SO" cord which is insulated to qualify for "extra hard usage." Cord wiring above the floor level can be "SJ" which is rated for "hard usage."

All flexible cords shall be 3-wire unless the cord is a component part of an assembly which is specifically approved.

The use of open clip sign sockets, latex or lamp cord wire in displays, dupliex or triplex attachment plugs are prohibited by order of the Rosemont Fire Department and Electrical Inspection Department.

All electrical equipment and wiring requires evidence of testing and approval by a nationally recognized testing laboratory.

Spot or flood lighting is a hazard when lamps are too close to fabrics or other material which may be affected by heat.

The Convention Center electrical services offer extension cords, spiders and plug molds which provide safety approved multiple plug in capacity.

Labor Union Guidelines

State of Illinois legislative changes have modified work rule jurisdictions and wage scale schedules in the Chicagoland area. There are seven major unions that have some jurisdiction in the Chicagoland area. The following guidelines will help you in preparing your exhibit to understand these jurisdictions.

WHAT AN EXHIBITOR CAN DO WITHOUT UNIONS IN THE CHICAGOLAND AREA

Recent work-rules modifications now enable exhibitors to perform several set-up tasks which in the past were under jurisdiction. Each of these are itemized below, and must be completed by a full-time employee of the exhibiting company.

1) Exhibitors may set up and dismantle their own booth displays.
2) Exhibitors may use hand tools and power tools to perform work within their booths.
3) Exhibitors may affix clamp-on lights to the top of their booth displays.
4) Exhibitors may calibrate and do repair work on internal circuit boards, and do interconnecting of peripheral computer equipment.
5) Exhibitors may do the connection of lighting, video equipment and light bulbs to an electrical outlet when the outlet has been ordered by the exhibitor.
6) Exhibitors may hang pictures, graphics, logos, etc. onto a backwall display when such items are designed to be affixed by pre-set velcro strips, permanently mounted hooks, or snaps.
7) Exhibitors may hand carry small packages, pop-up displays and desktop computer equipment provided it can be done without the use of a fork-lift, flatcart or dollie, only from a designated parking area.
8) Exhibitors may inflate balloons.
9) Video taping may be done by exhibitors within the confines of their own booths using equipment owned or rented by the exhibiting company, provided such taping does not conflict with show management regulations, and does not require tools or ladders.
10) Exhibitors may un-pack, re-pack and set out their own product line within the booth for display purposes.

CARPENTERS UNION

Carpenters handle the erection and dismantling of display and exhibit booths. This includes all display work with the exception of machinery, signs or lighted headers, unless the sign or header is a permanently attached part of the display. Carpenters also recrate machines for outbound loading. Millwrights, a division of the carpenters union, handle the assembly and the leveling of machinery, as well as the attachment of all guards and shields.

DECORATORS UNION

Decorators handle the installation of signs, drape background, table skirting, and all other items of decorative nature that must be done after a display background is erected.

ELECTRICAL UNION

Electricians handle all electrical work, which includes supplying power lines to your booth, connecting equipment to the proper outlets, installing any signs or headers that are lighted, unless they are permanently attached to the exhibit backwall, and the running of cable within the exhibitors booth.

MACHINERY MOVERS & RIGGERS UNION

Riggers handle all machinery. This includes the unloading of the machines from the trucks, moving the materials to your booth, and a one-time spotting of display ready equipment, which the exhibitor must supervise at the time of unloading. Riggers also remove skids and reskid machines, uncrate machines, and respot machines in the booth if needed. This service must be ordered as needed, at exhibitor's expense.

PLUMBERS UNION

Plumbers handle all plumbing work such as compressed air, water/drain, or natural gas.

TEAMSTERS UNION

Teamsters handle all freight inside the exhibit hall. They unload all trucks or vehicles, deliver the materials to your booth, and remove and reload materials at the close of the show.

THEATRICAL STAGEHANDS UNION

Stagehands assemble portable lighting and sound systems as well as picture screens 10' x 14' in size and larger. They also set stages, operate lighting and sound consoles, and hang lighting trusts and speaker systems.
